FLEXIBLE CON-FORM BOARDS

For over 10 years – Con-Form has been leading the way in concrete boxing, taking the place of heavy timber formwork such as LVL. The lightweight flexible boxing is designed to suit many applications. **Joiners** give an almost seamless finish and the **Camlocks** make setting out and adjusting as simple as turn and twist.

Think of how much timber you would buy in 7 years, add the extra set up and stripping time, and see why Con-Form is not only going to eliminate splinters in your hands but also the draining of your wallet.

- No more nailing - de nailing
- No power required
- No more twisted & warped boxing

CON-FORM FLEXIBLE BOARDS

Product Code	Description
PF754.8	75mm 4.8M Length
